or
“Finding and simplifying more challenging difference quotients.”

Engagement Activity for Section 1.5 of Precalculus, Third Edition, Stitz and Zeager

Primary Section: 1.5

Secondary Section: None

Key Concepts: Difference quotients

This activity is designed to help you more fully understand the concepts presented in Section 1.5 of the textbook. It is not a replacement for the regular homework, but rather, is a deeper investigation into the more challenging material presented in the section. Your professor will have specific instructions as to how he/she wants the activity to fit into the class so please pay attention in class when this activity is assigned.

For the functions given in 1 - 12 below, find and simplify the difference quotient $\frac{f(x+h) - f(x)}{h}$. The work needed to simplify some of these may not fit in the space provided so please do your work on scratch paper and record your final answer on this page.

1. $f(x) = \frac{1}{x}$

2. $f(x) = \frac{1}{x+9}$

3. $f(x) = \frac{-5}{3x+7}$

4. $f(x) = \frac{x}{x-5}$

5. $f(x) = \frac{2x+5}{4x-3}$

6. $f(x) = \frac{x}{9-x}$

$$7. f(x) = \frac{3x}{x^2 + 10}$$

$$8. f(x) = \frac{-x^2}{2x + 7}$$

$$9. f(x) = \sqrt{x + 2}$$

$$10. f(x) = \sqrt{3x - 1}$$

$$11. f(x) = \sqrt{9 - x}$$

$$12. f(x) = \sqrt{x^2 + 1}$$

Take-home challenge! Find and simplify the difference quotient for these functions.

$$13. f(x) = \frac{1}{\sqrt{x}}$$

$$14. f(x) = \sqrt[3]{x}$$

$$\textbf{HINT: } (a - b)(a^2 + ab + b^2) = a^3 - b^3$$

Student Questionnaire for Difference Quotients Re-Revisited

This Engagement Activity was created with one purpose in mind - to help you the student better understand the concepts presented in College Algebra. Whereas we think the activity does its job, the truth is that we need to know from you if it actually helped you learn. Please take a few minutes to complete this questionnaire anonymously and return it to your instructor. Your feedback will be used to improve the activity for next semester.

1. For Questions 1a through 1e below, please place an X in the box which most closely matches your opinion.

- (a) Before I began the activity, my understanding of the material was best described as

Clueless	Not so good	Meh	Pretty good	I pwned it!

- (b) After completing the activity, my understanding of the material is best described as

Clueless	Not so good	Meh	Pretty good	I pwn it!

- (c) The connection between the activity and the course material was clear

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

- (d) The activity's instructions were clear

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

- (e) The activity was a good use of class time

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

2. What did you like about the activity?
