

Build-A-Function: Algebra Edition III
or
“Find an algebraic expression for a polynomial given its graph.”

Engagement Activity for Section 3.2 of Precalculus, Third Edition, Stitz and Zeager

Primary Section: 3.2

Secondary Section: 3.1

Key Concepts: Polynomial functions - zeroes and graphs

This activity is designed to help you more fully understand the concepts presented in Section 3.2 of the textbook. It is not a replacement for the regular homework, but rather, is a deeper investigation into the material presented in Section 3.2 and how it is connected to other material presented in other sections. Your professor will have specific instructions as to how he/she wants the activity to fit into the class so please pay attention in class when this activity is assigned.

For each graph given in 1 - 10 below, find an expression for a polynomial f with real number coefficients whose graph matches the one shown. You may leave the polynomial in factored form. There may be more than one correct answer so don't worry if your answer doesn't match those of your classmates. In fact, we encourage you to be creative!

1.

$$f(x) = \underline{\hspace{2cm}}$$

2.

$$f(x) = \underline{\hspace{2cm}}$$

3.

$$f(x) = \underline{\hspace{2cm}}$$

4.

$$f(x) = \underline{\hspace{2cm}}$$

5.

$$f(x) = \underline{\hspace{2cm}}$$

6.

$$f(x) = \underline{\hspace{2cm}}$$

7.

$$f(x) = \underline{\hspace{2cm}}$$

8.

$$f(x) = \underline{\hspace{2cm}}$$

9.

$$f(x) = \underline{\hspace{2cm}}$$

10.

$$f(x) = \underline{\hspace{2cm}}$$

Now for a real challenge! Find an expression for a polynomial f with real number coefficients whose graph matches the one shown below. (Hint: Think about a vertical stretching followed by a vertical shift.)

11.

$$f(x) = \underline{\hspace{2cm}}$$

Student Questionnaire for Build-A-Function: Algebra Edition III

This Engagement Activity was created with one purpose in mind - to help you the student better understand the concepts presented in College Algebra. Whereas we think the activity does its job, the truth is that we need to know from you if it actually helped you learn. Please take a few minutes to complete this questionnaire anonymously and return it to your instructor. Your feedback will be used to improve the activity for next semester.

1. For Questions 1a through 1e below, please place an X in the box which most closely matches your opinion.

- (a) Before I began the activity, my understanding of the material was best described as

Clueless	Not so good	Meh	Pretty good	I pwned it!

- (b) After completing the activity, my understanding of the material is best described as

Clueless	Not so good	Meh	Pretty good	I pwn it!

- (c) The connection between the activity and the course material was clear

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

- (d) The activity's instructions were clear

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

- (e) The activity was a good use of class time

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

2. What did you like about the activity?
